# Marlon Inno

Full-stack developer · Tallinn, Estonia · Marlon.Inno.more@gmail.com · github.com/KwaleyXD

## Profile

Full-stack software developer based in Tallinn, Estonia, focused on building practical web applications, desktop tools and custom embedded hardware. Currently studying full-stack engineering at kood/Jõhvi (Batch 9).

## Featured projects

**OpenPack Editor**
Vue 3 · Pinia · Vite · Electron · Tailwind CSS · IndexedDB

Browser and desktop Minecraft resource pack editor with a multi-layer pixel-art and animation canvas, nearly 4,000 indexed vanilla textures, and non-destructive ZIP import and export.

**Baltic Auto Hub**
Nuxt 4 · Vue 3 · TypeScript · Tailwind CSS · Cloudflare Pages

Cross-border vehicle listing aggregator unifying car search across Estonia, Latvia and Lithuania.

**Custom 3D-printed mechanical keyboards**
Fusion 360 · RP2040 · Python · KMK firmware · PETG

Custom-modeled 3D-printed enclosures with hand-wired switch matrices and KMK firmware on RP2040 microcontrollers.
